You *should* include **Mexico City** as it is longer than **Mexico**. You *should not* include **Luxembourg** as the capital is the same as the country.

Submit SQL

restore default

## Statement needed

Have a go at writing an SQL statement.

The capital of Monaco is **Monaco-Ville**: this is the name **Monaco** and the extension is **-Ville**.

**Show the name and the extension where the capital is a proper (non-empty) extension of name of the country.**

You can use the SQL function REPLACE.
